

3rd LawCard® Roundtable in Luxemburg

New event format was well received

On June 16th, the 3rd LawCard Roundtable took place in the Parc Belair in Luxemburg. For two hours, investment compliance officers and Aquin experts sat together in a relaxed atmosphere and discussed current topics of interest. Eight participants from leading investment fund companies took advantage of the opportunity to have LawCard experts on hand.

Eligible Assets and the often vague legal provisions and definitions drew particular interest. Aquin will help customers by making suggestions as to how such vague passages can be applied in an IT environment.

A few days before the event, the new CSSF circular 08/356 came out dealing with securities lending / repo-transactions and the treatment of collateral. Of course, Aquin will help its customers stay up-to-date. A LawCard update concerning the new circular will be provided within the next weeks.

The LawCard Roundtables will take place 3-4 times a year, depending on upcoming regulatory issues in the future.
