

Optimized Investment Compliance with MIG21 6.1 from Aquin Components

New software version offers advanced Best-of-Breed Compliance

Frankfurt, April 23, 2007. Aquin Components GmbH, Software vendor for the international asset management and fund industry today announced that the new version of its compliance software MIG21 will be released on May 1st this year. Among the most important enhancements of this release are optimization of performance for ex-Ante and ex-Post compliance checks and cost of ownership. Furthermore, from a functional perspective Aquin has optimized breach views and breach handling whilst also making improvements to the compliance workflow support.

“The new MIG21 release 6.1 focuses mainly on a well-balanced combination of performance optimization and cost of ownership as well as functional improvements”, states Jens Jung, Vice President Compliance and Order Management at Aquin Components. “Together with the new features of version 6.1 we are in a position to offer even more advanced Best-of-Breed Compliance and to support our customers’ growth targets and new requirements.”

About Aquin
